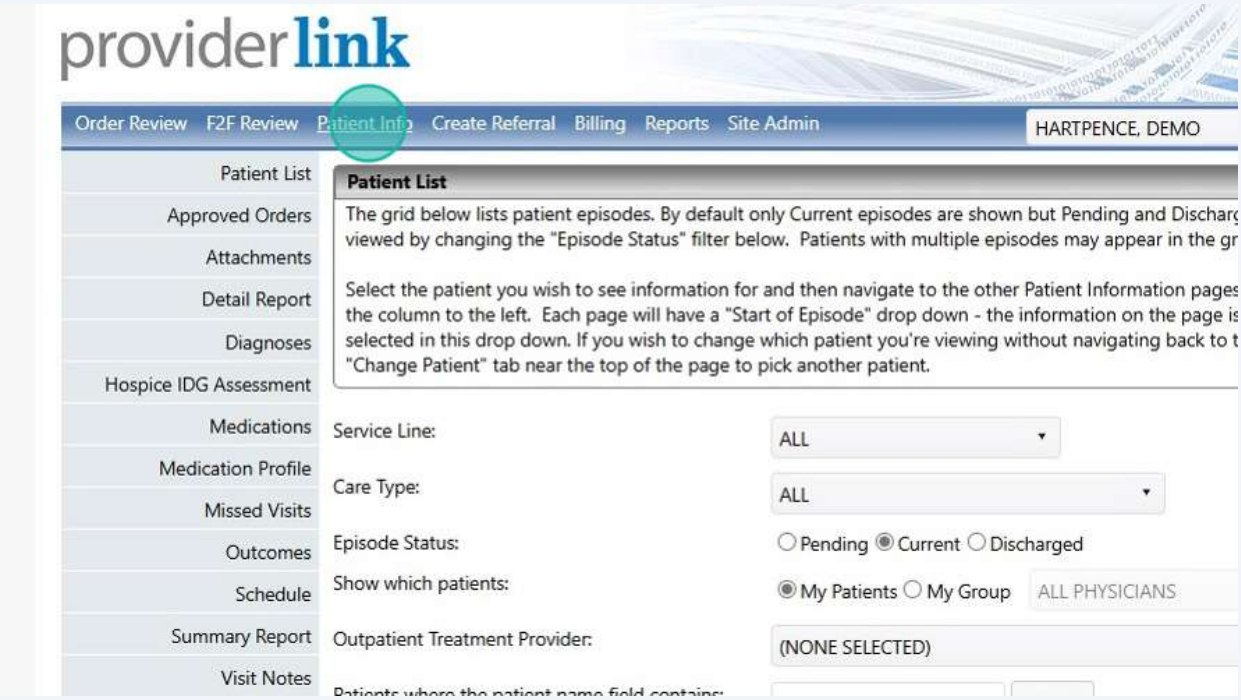
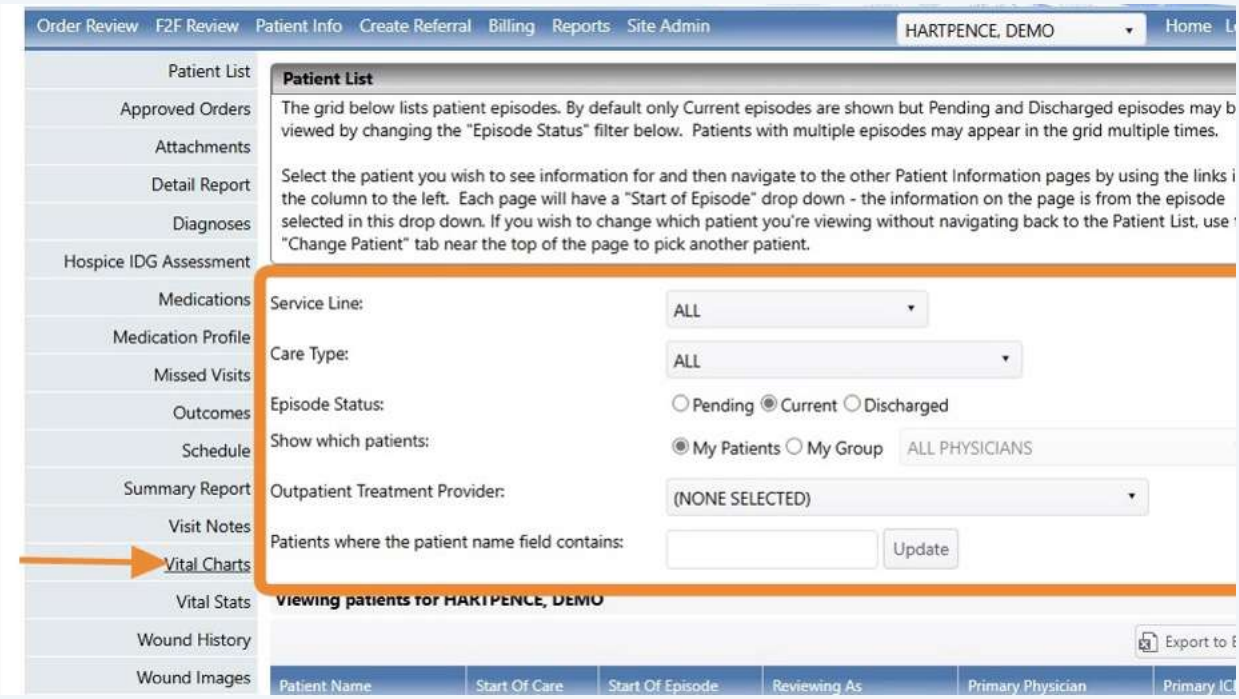
Provider Link: How to View Vital Signs and Alerts

This guide is essential for healthcare providers using Provider Link to effectively monitor patient vital signs and alerts. It outlines how to navigate the system, access trending reports, and utilize vital stats to stay informed about patient conditions. By understanding these processes, providers can quickly identify abnormal readings and ensure timely interventions, ultimately enhancing patient care. Viewing this guide empowers providers to make informed decisions based on up-to-date vital sign data.

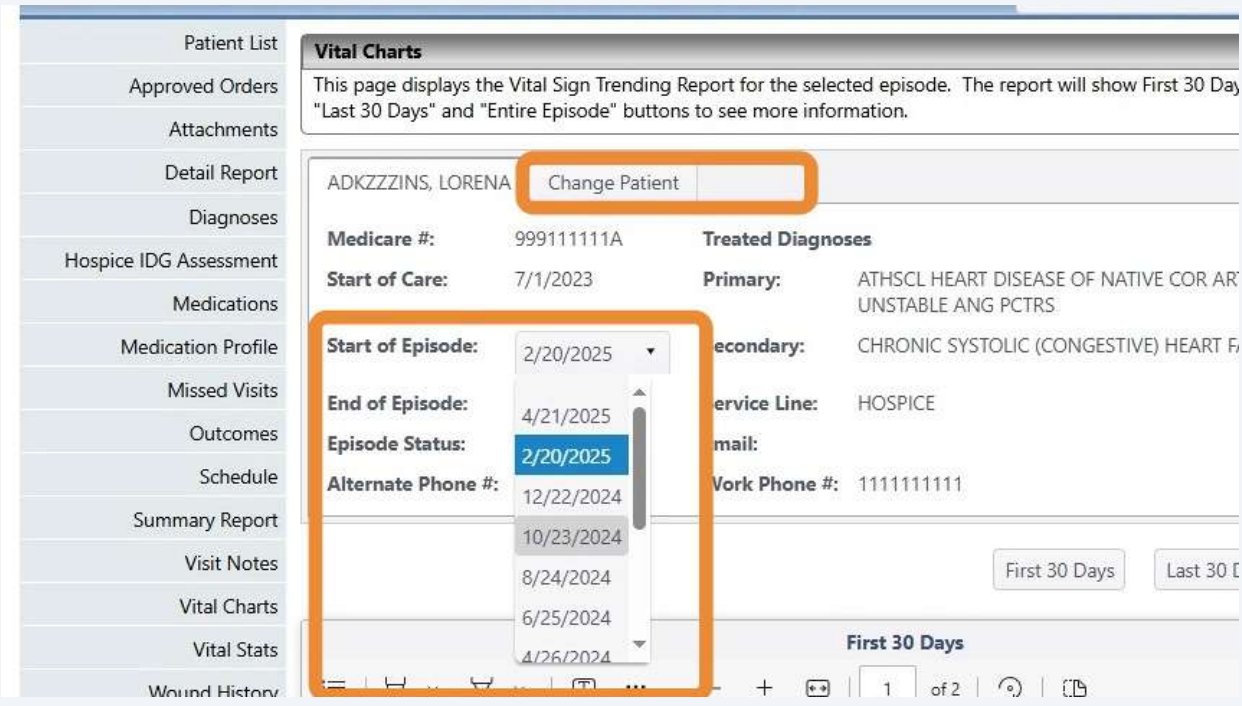
1 Once in Provider Link, click the *Patient Info* tab.



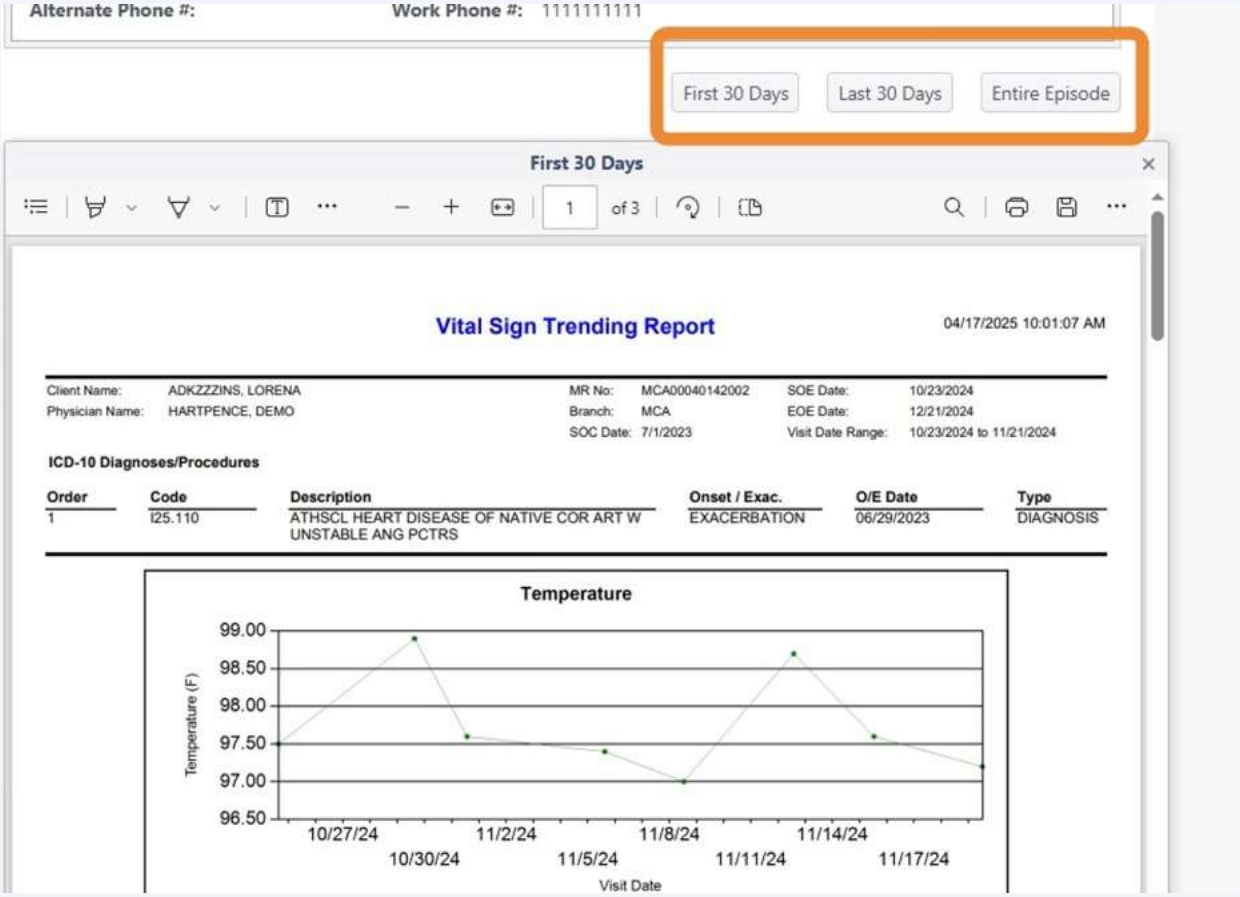
2 The provider can search for a specific patient in the *Patient List* section or go to the *Vital Charts* section to view vital sign trends. The patient can be changed at any time if needed.



3 Once in the *Vital Charts* section, the episode can also be changed if needed. The corresponding vital sign charts will display below.

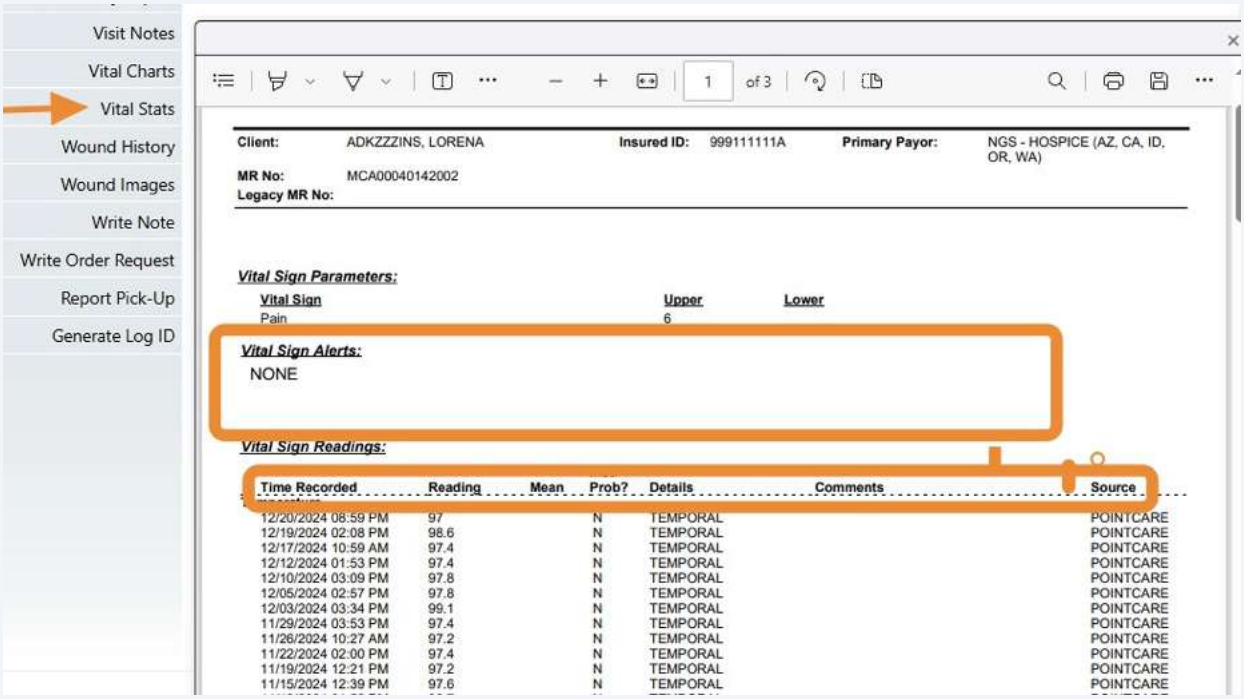


4 Trending reports display vital signs throughout the episode. You can use the day toggles to view data in 30-day segments or across the entire episode.

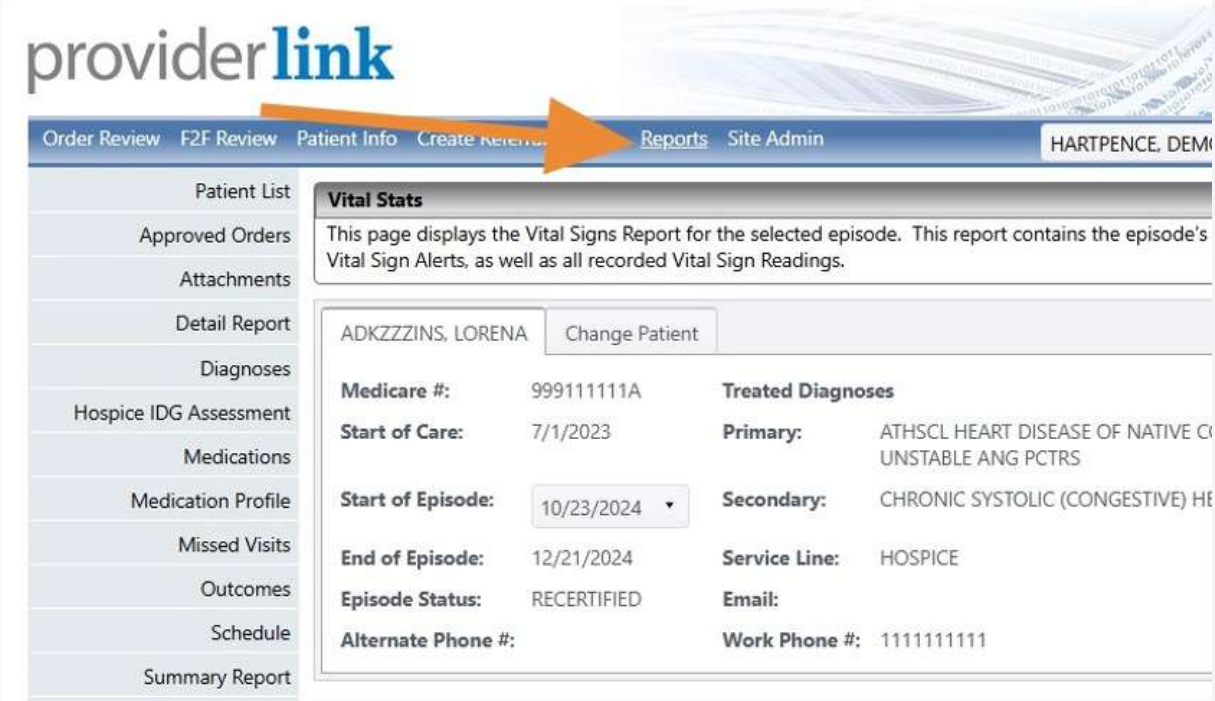


5 To view Vital Stats, click on *Vital Stats* in the gray column. You can change the patient and episode as needed.

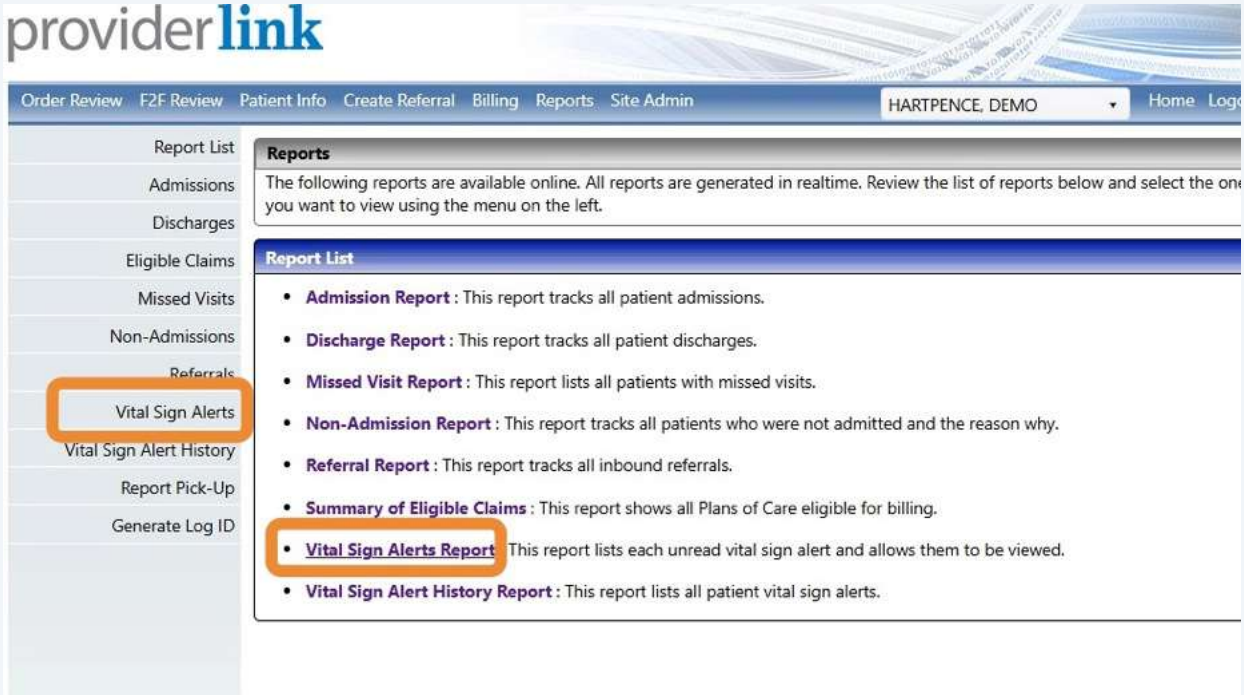
This report displays parameters, alerts, and vital readings throughout the episode, along with details and the source. "PointCare" indicates the device used by the caregiver to complete the visit.



6 There are two additional reports available. If the provider has *Website* selected as their preferred method for receiving Vital Sign Alerts in their Homecare Homebase profile, they can access these by clicking the *Reports* section in the blue ribbon at the top of the page.

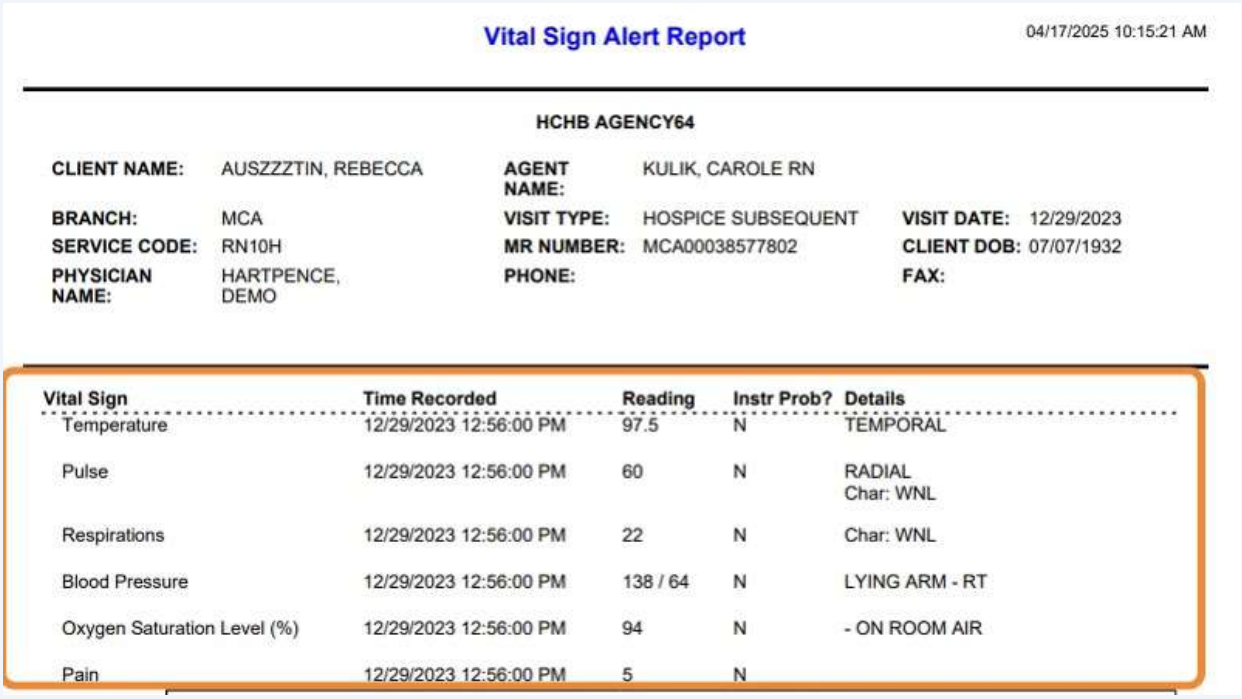


7 Click on *Vital Sign Alerts Report*. This report can be accessed either from the gray column or by selecting the link under the report list.



8 Click on the patient needed to review for a Vital Sign Alert.

9 The report will display below you can see the vitals, time record and readings.



Vital Sign Alert Report 04/17/2025 10:15:21 AM

HCHB AGENCY64

CLIENT NAME:	AUSZZZTIN, REBECCA	**AGENT NAME:**	KULIK, CAROLE RN		
BRANCH:	MCA	**VISIT TYPE:**	HOSPICE SUBSEQUENT	**VISIT DATE:**	12/29/2023
